Ingredients of the dough:

A kilo of flour

A dessert spoon of salt

Water

Description:

Add salt and water into the flour. Knead the dough until it gets soft. Make small lumps of dough and cook them in a pan or on a steel plate. After cooking them, you will have round pitas.

What you may put into the pitas:

With potato: Boil the potatoes and plane them. Cut the onions into small pieces, put them into the pan and cook until they get brown. Then add some paste, black pepper and potatoes. Finally add some parsley. Cook them for five minutes and it is ready to put into the pitas.

Enjoy Your Meal
